Profile

- Enthusiastic Software Developer with a proven track record in designing, developing, testing, and deploying robust web application solutions.
- Specialized expertise in JavaScript, React, Next.js, Tailwind CSS, and Node.js, with a focus on creating dynamic and user-friendly interfaces.

Experience

Software Developer   *Jun 2022 - Apr 2023*
SmartLeader, Auckland

- Spearheaded the development of the Control Dashboard website, streamlining consultants' workflows by enabling quick access to client data filtered by various statuses. This implementation significantly reduced workloads for consultants.
- Innovatively designed and implemented a new analysis page, providing admins with a comprehensive overview of statistics. This data-driven approach enhanced decision-making processes and contributed to a more informed strategy.
- Successfully recreated the Email Log page, resolving a critical loading crash issue. The redevelopment not only stabilized the page's performance but also improved the overall user experience.
- Collaborated seamlessly with cross-functional teams, including developers, testers, and end users, fostering an agile development environment. Contributed to continuous improvement through building, upgrading, testing, and deploying applications.
- Created and maintained comprehensive technical documentation for each project, ensuring transparent communication and facilitating knowledge transfer.

Web Developer   *Mar 2022 - Jun 2022*
New Zealand Business Association, Auckland

- Developed WordPress websites tailored to client's needs, enhancing their online presence and engagement

Education

Master of Applied Computing   *2023 -2024*
Lincoln University

Master of Information Technology   *2019 - 2021*
University of Auckland
